altoway	Multi-gigabit 60GHz millimeter-wave wireless solutions delivering fiber-equivalent speeds and ultra-low latency without the expense or delay of trenching cable.
BCDVIDEO PURPOSE-BUILT, PERFORMANCE DRIVEN	Purpose-built, high-performance IP video servers, client workstations, and enterprise storage arrays engineered specifically for critical video surveillance and security workloads.
code blue	Emergency communication solutions, integrating high-visibility help points, call boxes, and interactive towers with IP-based software to deliver reliable, critical voice and security response across commercial, educational, and public environments.
EyeOTmonitor	Enterprise Remote Monitoring and Management (RMM) platform designed to unify IT, OT, and physical security assets into a single pane of glass, featuring AI-driven camera health and image integrity validation.
FLIR	Global leader in advanced thermal imaging, dual-spectrum radiometric fire detection, and AI-enabled perimeter intrusion technology for enterprise and critical infrastructure.
LifeSafety Power	Intelligent, modular power management systems providing scalable, proactive, and network-managed solutions for enterprise access control and surveillance ecosystems.
Paige DATACOM SOLUTIONS	High-performance physical infrastructure solutions highlighted by the patented GameChanger™ cable, delivering full 1Gbps network speed and PoE+ up to 850 feet without repeaters.
QXR	Mobile-first, cyber-secure unified access control and AI-powered cloud VMS, pairing robust access hardware with seamless camera-to-cloud video management.
rayTEC	Premium LED illuminators engineered specifically for surveillance applications, including white-light, infrared, and explosion-proof lighting for hazardous environments.
STRONGPOLES SECURITY MOUNTING SOLUTIONS	Industrial-grade, ultra-sturdy security mounting poles and towers engineered specifically to eliminate camera shake and maximize image stability for video analytics.
VIGITRON	Comprehensive network transmission solutions - including long-distance Ethernet/PoE extenders, high-power PoE switches up to 90W, fiber media converters, and robust surge protection.
